293 Rothwell, William T 32516329

NON-ELIGIBLES - WORLD WAR II Cont'd

Rothwell, Km T. 32516329.

Rothwell, Katherine (Solers, France - Epinal)

Decedent was infant 18 days old at time of death. Father shown as William T. Rothwell, Glendale, Long Island. Administrative decision made 18 Aug 48 to bury overseas permanently, on following basis: "In view of the fact that the decedent was only 18 days at time of death it is not considered wise to return remains to U. S. in view of no request from the Next of Kin, nor is it considered wise to solicit express of desires from the Next of Kin." File contains no further explanation of basis for decision.

On 14 Nov 49, Col Freeman reviewed this case and those of the other infants listed by AGRC, Paris, in letter of 17 March 49. He authorized the addition of this note. The provisions outlined in comment 1 above were modified by Info Bulletin #13, dated 25 July 49, Subject: Disposition of WWII Dead in Overseas Cemeteries. This makes a distinction between cases of Stillborn Infants and Infants who lived after birth. Stillborns were not U.S. citizens; infant born to U.S. citizens who survived birth are eligible for disposition under PL 368, 80<sup>th</sup> Cong. *File 27 July 49*

I have discussed with General Horken the possibility of burying these remains in Germany. He states that there are no American cemeteries in the US Zone of Germany and that all current deceased are either returned to the United States or released to the next of kin for private burial at the expense of the next of kin. It would appear that burial in Germany is not the solution to this question.

Colonel Busch, Deputy Chief Quartermaster, EUCOM, has offered a suggestion and I present it to you for consideration without comment since the status of the cemetery mentioned is not known to me. Colonel Busch suggests that the remains might be returned to the US and buried in the post section of the Long Island Cemetery.

Another possible solution is burial in a French communal cemetery. This would entail either rental or outright purchase of land for the grave site by the US Government or the next of kin. If this were done, this command could act as agent for the next of kin at the private burial.

It is my recommendation that these cases be buried in World War II cemeteries as heretofore contemplated and in five cases already directed by the Quartermaster General.

Sincerely yours,

/s/ H. L. PECKHAM  
Brigadier General, USA  
Commanding

(Complications and changes in diagnosis, with date in each case, should be entered on this sheet)

Baby Girl.

Full term Normal Delivery. Lb 10 1/2 lbs  
2nd child. Next 9 yrs old. Misc. in 9 yrs  
Some attempt at breast feeding. They both fed  
into 6 days mother's milk. They could milk. The  
past 2 days mother's milk, sugar & water. 80 gms (2 1/2 oz)  
9 3rd hr. Baby vomited this.

Breasts were more sore the 5th day

= Slight cyanosis due to cold

No much dehydration

Some inflammation of genitalia

Dry mucous membranes & mouth. Skin dry &  
discolorating

Lungs fields are clear out to perit

cardiac sounds are normal

Abdomen is distended. Lg. hefted during exam

Liver &amp; spleen are normal.

Umbilicus not completely healed

Reflexes are normal bilaterally

No papules.

Stool: (Pasty yellow brown small curds - a very  
little mucus to stool.

6 1/2 lbs. Weight at

45 cal per lb =  $45 \times 6.5 = 292.5$ . Make it even 300 cal  
Requires 1.5 oz milk per lb of wt =  $1.5 \times 6.5 = 9.75$  oz milk  
300 cal total minus 100 cal in milk = 200 cal in sugar  
Cane sugar 120 cal 12 oz = 2.5 oz full

Then fluid requirements = 3 oz of fluid per lb of body wt  
 $3 \times 6.5 = 19.5 = 20$  g plus 1 oz of water because  
of dehydration

Cup Milk 5 oz = 140 cal + 300 cal

Cane sugar 1 1/2 full full = 100 cal

Bosch Water 16 oz (Use both sides of this sheet)

Feedings 6  $\frac{210}{200}$  per feeding 3 1/2 oz (over)

## RADIOLOGIC REPORT

16-10894-2

M. C.

H. Ansbach, Maj.

Exam. chest shows a calcified primary complex in the Rt. base. I see no evidence of re-infection type tbc in the upper lobes. Due to respiratory motion, the detail in the bases is obscured and pathology in this region is not determined.

Dear Major ;

Received today your request for information concerning the parents of Katherine Rothwell, infant, whose funeral I attended at Solers, France in November of 1945. I recall that on one occasion an unusual funeral took place, that of a Major, a Red Cross girl killed in a jeep accident and a baby. I recall that the Major had a French wife who mourned his death.

I looked over all papers and could find only that a Katherine Rothwell was a patient in Ward B of the 241st General Hospital which was stationed in Paris, on November 11, 1945. I can not say whether this was the infant or the mother.

I regret that this information is so insufficient.

Sincerely,

*Rev. V.L. Vifquain S.J.*

Dear Major:

I received your letter of June 14, 1945, regarding the burial of a French soldier who was killed in action during the war. I am sorry to hear of his death and the loss of his family. I will do my best to locate the body and arrange for its burial in a proper manner.

I looked over all the records and could find only that a French soldier was a patient in Ward B of the 34th General Hospital which was stationed in Italy on November 11, 1945. I can not say whether this was the soldier or the father.

I regret that this information is so insufficient.
