2. Summary

a. Personnel Involved: (Case No. 6-162)

COURTLEIGH, Richard Wilson PFC 364529 USMCR

b. Private First Class Richard Wilson Courtleigh was reported killed in action against Japanese forces on Tarawa Atoll, Gilbert Islands, on 21 November 1943. His remains were buried on Betio Island, Tarawa Atoll, Gilbert Islands. No further information is available.

APO 958, c/o Postmaster, San Francisco, California

1. Findings indicated in paragraph 3a(1) of Board Proceedings Number 420, your headquarters, are approved.
2. Findings indicated in paragraph 3a(2) of above referenced Board Proceedings are disapproved, and the unknown remains listed in Exhibit 2 will be designated as individual unknowns.
3. It is not the intent of this office to memorialize battles, engagements, events, etc., by the establishment of group burials of the only recoverable remains of large numbers of unaccounted-for deceased. If the subject case were approved as a group burial, it would then be necessary to consider similar cases involving large numbers of unaccounted-for deceased all over the world.
4. In view of the decision indicated above, it is requested that the following action be taken by your headquarters:
 - a. Submit to this office certificates of unidentifiability for each unknown deceased indicated in Exhibit 2.
 - b. Submit to this office appropriate Board Findings of non-recoverability for each deceased listed in Exhibit 1.

BOARD PROCEEDINGS)

NUMBER 420)

PROCEEDINGS OF BOARD OF REVIEW

1. The Board of Review convened on 12 November 1948 pursuant to Par 2a, Special Orders 97, Headquarters, American Graves Registration Service, Pacific Zone, APO 958, dated 24 September 1948.

2. Summary

a. Personnel Involved:

See Exhibit 1

b. Unknowns Involved:

See Exhibit 2

c. Exhibit 1 is a roster of all personnel reported to have been killed or missing in action from 20 to 26 November 1943, inclusive, in the battle for possession of Tarawa Atoll, Gilbert Islands, plus the names of John Owen Morris and Edward W. Dungan, Jr., who were killed on 16 December 1943, and 12 January 1944 respectively. While the information recorded on OQMG Forms 371 indicates, in some cases, "Body not recovered", in the great majority of cases it is stated that the remains are reported to have been buried in one of the 43 battlefield burial sites or uncounted isolated graves which were established during or immediately after the battle. Also, in some cases, no statement is made as to the recovery or disposition of the remains. When all of the original burial sites on Tarawa Atoll were disinterred in 1946 and re-interred in Lone Palm Cemetery, Betio Island, Tarawa Atoll, the remains of the individuals listed in Exhibit 1 could not be identified. A description of conditions in which the numerous burial sites were found is presented in Exhibit 3 (Report, Hq., Fleet Marine Force, Pacific, dated 3 Oct 46, Subj: Investigation of Graves of Deceased Marine Corps Personnel on TARAUA Atoll).

d. The Unknowns listed on Exhibit 2, "Unidentified Tarawa Remains (Lone Palm Cemetery)" are all of the remains, not yet identified, which were recovered during the concentration of American remains on Tarawa Atoll to Lone Palm Cemetery. With the exceptions of John Owen Morris, and Edward W. Dungan, Jr., the remains of all personnel who met their deaths on Tarawa Atoll subsequent to 26 November 1943 have been recovered and identified. Therefore it can be concluded that the Unknowns listed in Exhibit 2 are the remains of only those who met death between 20 November 1943 and 26 November 1943, plus Morris and Dungan.

Encl 1/194

R E S T R I C T E D

Bd Proceedings 420, Hq, AGRS-PAZ, APO 958 (Contd)

c. During December 1946 and January 1947 all remains in Lone Palm Cemetery were disinterred and moved to Hawaii.

f. In 1948 all unidentified remains from Lone Palm Cemetery were examined at the Central Identification Laboratory and QMC Forms 1044 were prepared. A comparison of this data with the physical characteristics of those known to be missing in action at Tarawa revealed that individual identifications of the remains cannot be made. All of the remains are skeletal, most are in a fragmented and eroded condition, and identifying dental and physical characteristics are meager or of such a general nature that they could be compared favorably with many of the missing.

g. Two identification tags inscribed "Brown, V.M. 331647" were found with the remains of Unknown X-278. However, ASF OQMG letter, file QMGYG Subj: Identification of Unknown Remains, dated 15 July 1946, states that V. M. Brown is "alive and well".

3. Findings

a. After due and careful consideration of all available information, the Board unanimously finds:

(1) That the time and circumstances of the deaths of the individuals listed on Exhibit 1 indicate conclusively that the unidentified remains listed on Exhibit 2 are in fact the only recoverable remains of those individuals, and that individual identification is not possible due to the circumstances of death and battlefield burial, the lack of accurate records regarding the original burials, the lapse of time, and the present condition of the remains.

(2) That the unknown remains listed on Exhibit 2 comprise a group burial, each of which is identified as one of the individuals listed on Exhibit 1.
