393 PL SGT Frederick J. Brunner, 371 8 61 USMC
Plot A, Row 36, Grave 47
Headstone: Cross
Neuville-en-Condroz, Belgium
United States Military Cemetery

Mr. John Brunner
41 High Park Boulevard
Eggertsville, New York

Dear Mr. Brunner:

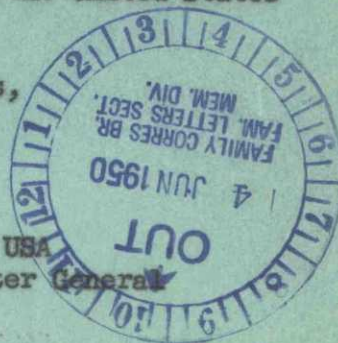

This is to inform you that the remains of your loved one have been permanently interred, as recorded above, side by side with comrades who also gave their lives for their country. Customary military funeral services were conducted over the grave at the time of burial.

After the Department of the Army has completed all final interments, the cemetery will be transferred, as authorized by the Congress, to the care and supervision of the American Battle Monuments Commission. The Commission also will have the responsibility for permanent construction and beautification of the cemetery, including erection of the permanent headstone. The headstone will be inscribed with the name exactly as recorded above, the rank or rating where appropriate, organization, State, and date of death. Any inquiries relative to the type of headstone or the spelling of the name to be inscribed thereon, should be addressed to the American Battle Monuments Commission, Washington 25, D. C. Your letter should include the full name, rank, serial number, grave location, and name of the cemetery.

While interments are in progress, the cemetery will not be open to visitors. You may rest assured that this final interment was conducted with fitting dignity and solemnity and that the grave-site will be carefully and conscientiously maintained in perpetuity by the United States Government.

Sincerely yours,

H. FELDMAN
Major General, USA
The Quartermaster General

- b. Where was the information obtained? unknown
- c. By Whom? unknown
12. What is the date of death? 20 March 1945 01:00 hrs
- a. Give basis plane crash
13. What is the cause of death? witness
- b. Give basis
14. What is the date of burial?
- a. Give basis
15. What was the place of death? Schwege, Germany Coords Sheet K 53 (RB3629)
- b. Give basis Civilian witness statement and German Cemetery Records
16. Where were the remains found? Schwege, near Farm-house Coords Sheet K53(RB 3428)
- a. By Whom? Civilian Olinde Kruse, Schwega No. 68
- b. Is sketch attached? yes
17. Was a casket used? no Who furnished the casket? none used
- Type of casket none How marked? none
18. Who made the burial German Military
(Civilian, American Mil. or German Mil.)
- a. What are the names and addresses? unknown
- b. Are certificates and statements attached? yes
- SECTION B — AIR CORPS DECEASED (To be Completed only if Deceased is believed to be a member of the AAF)
19. Were remains found in the plane wreckage? no
- a. Give location in plane from which the bodies were removed
- (Tail gunner, pilot, radio, turret, etc., or front, side of plane)
- b. Near wreckage? yes
20. Scene of crash must be investigated. Give complete results of investigation (if removed, state when and by whom)
- a. Type of Plane 2 motored plane
- b. Markings and/or name on plane Douglas A 26
- c. Give numbers on motors, machine guns, instruments, radios or other equipment: unable to take members because plane is under water or moor
21. How did crash occur? unknown Anti-aircraft unknown
- Enemy Planes? unknown Collision? unknown
22. Did plane explode in the air? no On ground? no
23. Did plane burn in the air? no On ground? no
24. What was the direction of the flight? west
25. What was the civilian opinion regarding destination of plane? unknown

26. Had bombs been released prior to the crash? no bombs
27. Does specific time and date of crash correspond with date of death of above named deceased? yes
28. Number of planes in formation prior to crash unknown
29. State precise time and date of plane crash 19 March 1945 01:00 hrs
(Night? Day?)
30. Were parachutists seen? unknown How many? unknown Escaped? unknown
Prisoners? unknown

SECTION C — ARMORED CORPS DECEASED (To be completed only if deceased is believed to have been a member of the Armored Force)

31. Were remains found in wreckage of a tank?
a. Give specific position in tank from which deceased was removed
(Radio man, driver, assistant driver or . . . front, side, or back)
b. Near wreckage?
32. Location of destroyed tank must be investigated. Give complete results of investigation. (If removed, state when and by whom)
a. Type of tank
b. Markings and/or name of tank
c. Numbers on motors, machine guns, ammunition, instruments, etc
33. What was the type of enemy action that resulted in the tank's disablement?
34. Did tank explode? Burn?
35. Number of tanks in immediate vicinity at time of disablement
36. Does specific time and date of disablement correspond with date of death of above named deceased?
37. Precise time and date of destruction of tank
(Night? Day?)
38. Did any of the crew members escape? Prisoners?

SECTION D — OTHER BRANCH (To be filled out if B & C are not applicable)

39. Did death occur from any other means? (i. e., truck, jeep, mines drowning, or small arms fire)
If so, give complete and thorough results of the interrogation
a. Are all certificates and statements of people who possessed knowledge of the case attached?
40. State the specific clues and evidence that were obtained in securing the name and facts regarding the above listed deceased

SECTION E — GENERAL (To be completed by investigation in all cases)

41. Were personal effects recovered by the investigating team no
If not, state reason deceased were taken care of by German Mil.
- a. Were identification tags found at the time of death? unknown
Where? By Whom?
Present disposition
- If deceased is not identified, personal effects will not be forwarded to PE Depot, but will remain with this form until final identification is made, or investigation is abandoned

- 1 -

STATEMENT

On the evening of the 20 of March 1945 I was ordered to look at an airplane which had come down. The plane had come down near Schwege, a little distance from Hunteburg. With the policeman Pranghe who was accompanying us, we went to see the plane which was guarded by Mr. Winter, Schwege.

The plane was loosing height and came down slowly. Through hitting the ground it was damaged and slipped into a little brook and was totally destroyed. The only remaining part of the plane was the body.

After investigation it was found out, that it was a Douglas A 26, with 18 cylinder motor and one rudder, further it was noticed, that the plane was not hit by Anti-aircraft or fired upon by another plane. The members of the crew, believed to be 5, were dead.

The names which were identified through identification tags are as follows:

| | | |
|---------------|---------|----------------------------|
| Nowak, Pawel, | through | German identification pass |
| Tresemer, | " | identification tag |
| Emmel, | " | id " |
| Walsh, | " | " |
| Brunner | " | naby pass |

4 of the members were in soldiers out fit, Nowak were civilian clothes. 2 members of the crew were lying beside the plane the other about 20 to 150 meters away. The bodies showed some injuries, probably from the crash, some of them had arms and legs broken.

- 2 -

All papers and personal effects taken from these bodies were handed over to the Kommandant, except those of the civilian Nowak. The papers of Nowak taken by policeman Pranghe were handed to Kommandant Hospelt, were looked through and later handed over to the secret service. Policeman Pranghe has taken care of a greater amount of papers, forms, stenoids, small headphones and a small microphone, as well as RM. 7000,00 and one pound note (English money).

From papers found on Nowak it could be seen, that he had to be dropped as a spy. For this purpose he was using an automatic parachute, as all the other members had an ordinary parachute.

From a letter written on paper of the Hermann-Goering-Works at Prag, could be seen that after a telephone conversation with this factory and another factory at Muelheim, Nowak was to be transferred to there. Another letter was written to a certain gentleman in the factory and should be used as a letter of recommendation. On Nowak was found a German identification pass, it showed, that he was of Czech nationality.

The statement given by the wife of the farmer Kruse, who is living nearest to the place of the accident was, that the plane must have come down already in the night of 18-19 March 1945, because during this night she heard a great noise.

As the moor is some distant away, the plane had not been noticed until the 20 of March 1945.

Bramsche, den 8. March 1946

Rudolf Grussendorf
s/ Grussendorf

S T A T E M E N T .

On 20 March 1945, I saw one 2 motored plane about 1 km from my house. Later in the afternoon I went to the scene of the crashed plane with a Russian civilian, on the right side of the plane I saw a dead American flyer, later another body was found in the meadow 50 meters from the plane. The fourth man was found in the water a little way from the plane. And the fifth man was found one hundred meters from the plane.

All the papers that were found on the deceased were taken by the German Military. The man on the left of the plane was badly wounded in the right leg and the civilian was badly wounded in the right side of the head. None of the deceased were burned. The plane did not burn in the air or did not explode.

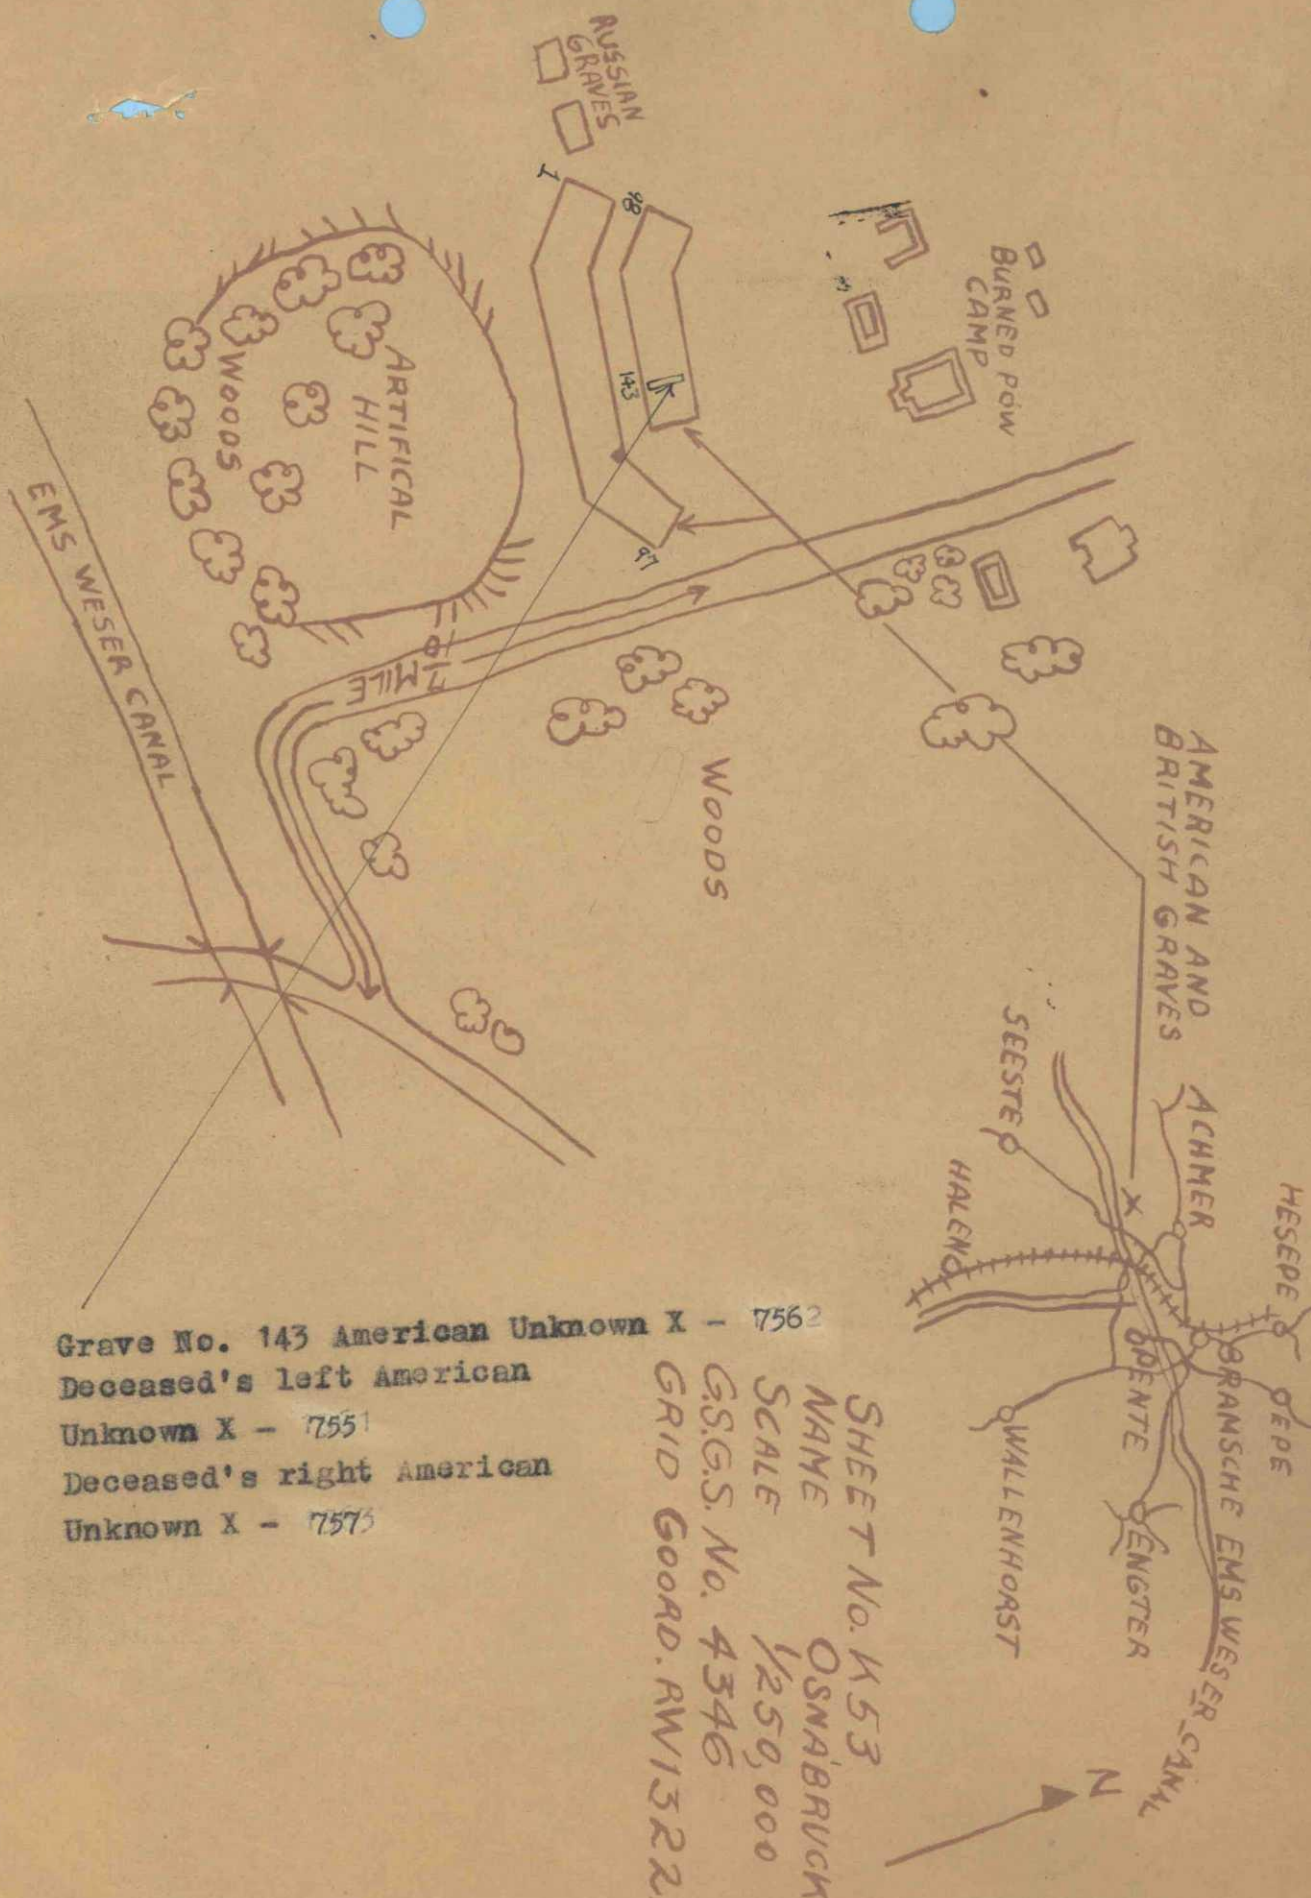

The plane is still there but it is impossible to investigate because the area around the plane is under water or moor.

The plane crashed about one o'clock in the morning of 20 March 1945.

I did not see parachutes or I do not know if there were any prisoners taken.

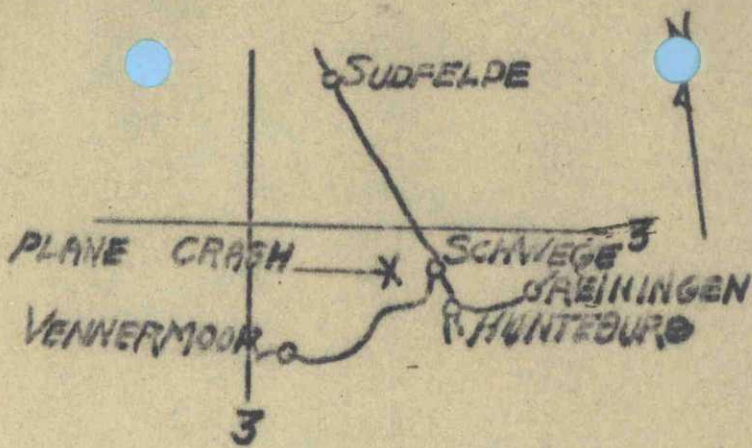

Olinde Kruse

8. Description of Remains:

Age unknown Height approx 5' 1" Weight approx 110 Description of wounds head crushed

Bandages or dressings none Scars unable to determine, flesh decomposed
(Length, width, location)

Tattoos unable to determine, flesh decomposed
(Number, location — illustrate on sep. page)

Outstanding moles, warts or birthmarks unable to determine, flesh decomposed
(yes-no; description, location)

Sunburn or tan, other than hands & face unable to determine, flesh decomposed

Complexion unable to determine, flesh decomposed
(dark, light, ruddy, pinkish, purple, pocks, freckles)

Build large
(large, fat, thin, muscular)

Hair dark brown straight
(color, length, wavy, curly, straight, whorls, or definite parting).

Hair straight
(baldness, widows peak, distinctive cutting or other characteristics)

Sideburns **unable to determine, head crushed** Mustache **none** Beard or Goatee **none**
 (color, setting, shape) (color, size, shape) (length, heavy,
 light, color, extent)

Eyes **decomposed** Eyebrows **unable to determine, flesh decomposed**
 (color, setting, shape) (color, bushiness, extent across nose)

Nose **straight** Ears **unable to determine, flesh decomposed**
 (size, shape, straight) (size, set close to or far from head)

Mouth **medium** Lips **decomposed**
 (large, medium, small) (small, large, full)

Teeth **see attached tooth chart**
 (white, size, unevenness, spacing, noticeable crowns, fillings, extract.)

Chin **normal**
 (prominent, receding, pointed, dimple, double)

Jaw **normal** Circumference of head in inches **22"**
 (large, small, normal) (hat band)

Neck **normal** Larynx **decomposed**
 (size, length, short, normal, wrinkled) (Prominent, normal)

Shoulders **straight** Arms **disjointed**
 (broad, straight, small, rounded) (length, muscular, color)

(extent and quantity of hair)

Hands **normal**

Fingers **slender, long**
 (short, thick, long, slender, size of knuckles, missing fingers
 or joints.) (Unusual characteristics of fingernails)

Chest **disjointed**
 (size of nipples, color, quantity & extent of hair, large, small, normal).

Back **unable to determine,** Waist **disjointed**
 (quantity & extent of hair) (size of navel, appendectomy, amount)

quantity & color of hair) Circumcision **unable to determine** Pubic hair **brown**
 (yes-no) (color)

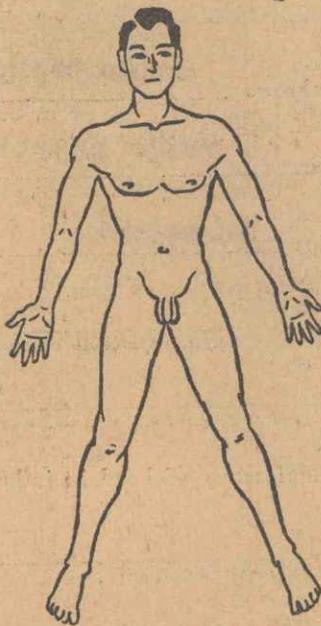

Hernioplasty **unable to determine**
 (yes-no; location)

Legs **29 inches, normal**
 (inseam, muscular, knock-kneed, bowed, normal, quantity, color & extent of hair)

Feet **9** Toes **straight**
 (Size, corns, callouses, flat) (slender, straight, crooked, overlap)

Evidence of healed fractures **none**
 (nose, arms, legs, etc.)

9. Black out parts of body not received at cemetery:.....

10. Have fingerprints been placed on Report of Interment no
Yes-no

If not, explain flash decomposed

11. Has tooth chart been prepared yes If not, explain
Yes-no

12. Remarks: This deceased dressed in civilian clothes was killed with this plane crash.

There is no clue to identity

I certify that I have personally viewed the remains of subject deceased and all resulting information has been recorded to the best of my knowledge.

This dental chart is very important and should be filed in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspid (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspid (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

SUBJECT: Unidentified personnel on A-26 plane

TO : American Graves Registration Command, Hotel Trianon,
Versailles
Attention: Mr. Gutman, Unidentified Branch

1. Reference is made to the case of the A-26 plane which crashed at Schwege, Germany, on 20 March 1945, killing all occupants, three bodies of which still remaining unidentified.

2. Our investigation reveals that only two members of the Office of Strategic Services were officially present on the plane, one being Staff Sergeant Frederick J. Brunner, USMCR, and the other being a European civilian, Kurt Gruber, alias Nowak. Descriptions are as follows:

Platoon Sergeant Frederick J. Brunner, USMCR, Serial No. 371861
Next of kin: Mr. John Brunner, 41 High Park, Eggertsville, N. Y.
Date of birth: 16 November 1915
Physical description: Ruddy complexion, light brown hair, blue eyes (normal), height 70", weight 195 pounds. Scars: right forehead scar 1/2", left eyebrow scar 1", pin mole on left chest, vaccination scar on left arm, mole on left abdomen, mole on right knee, 1/2" scar on the right hand, mole on center of back, birth mark on left thigh. Teeth: #1 - missing; #2 - filling; #3 - two fillings; #4 and #6 - cavity; #14 two fillings; #16 missing; #17 - missing; #19 - cavity and filling; #30 - filling; #32 - missing.

Kurt Gruber, alias Nowak. Born Hovel a/Hamm, Westphalia, 13 May 1912. Height 5 ft 6 in. Head 6-3/4. Shoes 7. Waist 33. Leg length 31. Collar 15. Weight 140. Roundish face. Dark-blond hair. Blue eyes. Fair complexion.

3. The above information represents everything in our files bearing on the case. We hope it will serve in some way to afford identification of the bodies.

4. If we can be of any further assistance in the future, please feel free to call upon us.

S T A T E M E N T

On the evening of the 20 of March 1945 I was ordered to look at an airplane which had come down. The plane had come down near Schwege, a little distance from Hunteburg. With the policeman Pranghe who was accompanying us, we want to see the plane which was guarded by Mr. Winter, Schwege.

The plane was loosing height and came down slowly. Through hitting the ground it was damaged and slipped into a little brock and was tatally destroyed. The only remaining part of the plane was the body.

After investigation it was found out, that it was a Douglas A 26, with 18 cylinder motor and one rudder, further it was niticed, that the plane was not hit by Anti-aircraft or fired upon by another plane. The members of the crew, believed to be 5, were dead.

The names which were identified through identification tags are as follows:

| | | |
|---------------|---------|----------------------------|
| Nowak, Pawel, | through | German identification pass |
| Tresemmer, | " | identification tag |
| Emmel, | " | id " |
| Walsh, | " | " |
| Brunner | " | navy pass |

4 of the members were in soldiers out fit, Nowak were civilian clothes. 2 members of the crew were lying beside the plane the other about 20 to 150 meters away. The bodies showed some injuries, probably from the crash, some of them had arms and legs brocken.

AUG 12 1949

B

- 2 -

All papers and personal effects taken from these bodies were handed over to the Kommandant, except these of the civilian Nowak. The papers of Nowak taken by policeman Pranghe were handed to Kommandant Hespelt, were looked through and later handed over to the secret service. Policeman Pranghe has taken care of a greater amount of papers, forms, stencils, small headphones and a small microphone, as well as RM. 7000,00 and one pound note (English money).

From papers found on Nowak it could be seen, that he had to be dropped as a spy. For this purpose he was using an automatic parachute, as all the other members had an ordinary parachute.

From a letter written on paper of the Hermann-Goering-Works at Prag, could be seen that after a telephone conversation with this factory and another factory at Muelheim, Nowak was to be transferred to there. Another letter was written to a certain gentleman in the factory and should be used as a letter of recommendation. On Nowak was found a German identification pass, it showed, that he was of Czech nationality.

The statement given by the wife of the farmer Kruse, who is living nearest to the place of the accident was, that the plane must have come down already in the night of 18-19 March 1945, because during this night she heard a great noise.

As the moor is some distant away, the plane had not been noticed until the 20 of March 1945.

Bransche, den 8. March 1946

AUG 12 1945

S T A T E M E N T .

On 20 March 1945, I saw one 2 motored plane about 1 km from my house. Later in the afternoon I went to the scene of crashed plane, with a Russian civilian. On the right side on the plane I saw a dead man dressed in civilian clothes. ~~On the left side was a dead American flyer, later another body was found in the water a little way from the plane.~~
 On the left side was a dead American flyer, later another body was found in the water a little way from the plane.

All the papers that were found on the deceased were taken by German Military. The man on the left of the plane was badly wounded in the right leg and the civilian was badly wounded in the right side of the head. None of the deceased were burned. The plane did not burn in the air or ~~explode~~ did not explode.

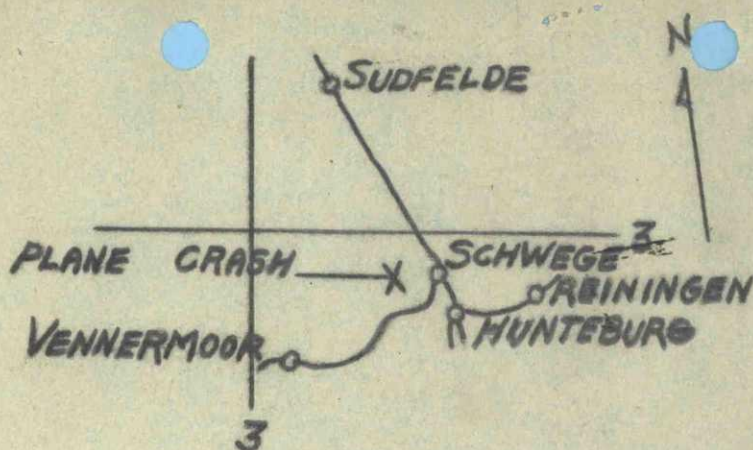

The plane is still there but it is impossible to investigate because the area around the plane is under water or moore.

The plane crashed about one o'clock in the morning of the 20 March 1945.

I did not see parachutes or I do not know if there were any prisoners taken.

 Statistical Officer.

REMARKS:

17. REMARKS OR EYEWITNESS STATEMENTS:

Line 2.

Course: From Base to Channel - Unavailable.
Approximate coordinates after reaching Continent.
52 Deg 30 Min - 4 Deg 40 Min
52 Deg 35 Min - 5 Deg 50 Min
52 Deg 48 Min - 7 Deg 15 Min
52 Deg 30 Min - 8 Deg 20 Min (Target Area)

Target: Dummer Lake Area.

Line 3. The forecast was written for takeoff at 2100 hours and target time 2300 hours - actual takeoff 2 hours and 17 minutes late.

The Base conditions at 2100 hours were as follows:

Clouds: 10/10 base 700 feet.

Visibility: 2200 yards.

Weather: Continuous moderate rain.

SFC Wind: West 19-24 MPH - 2000 feet 290 Deg 30 MPH

REMARKS, Line 3. (Continued)

The conditions at actual takeoff (2 hours 17 minutes later).

Clouds: 9/10, base 700 feet.

Visibility: 3000 yards.

Weather: Light continuous rain.

Enroute to target the forecast read:

400-600 feet in rain lowering to 200-400 feet in stratus and drizzle over Channel, North Sea, North Holland and in Germany breaking inland 50 miles to 4/10 - 6/10 clouds 1000-2000 feet and small patchy high clouds.

The actual map drawn for 0100 hours 20 March 1945 showed 10/10 bases 1000-2000 feet except on coastal areas north of target the clouds were 10/10 bases 400-600 feet, visibility 1 mile in light continuous rain. Surface wind WSW 19-24 MPH and at 2000 feet 250 degrees 40 MPH. While at approximately a 60 mile radius from target they had overcast 1000-2000 feet without rain, but there were no reports at target area to substantiate weather at target.

Line 11. EMMEL, OLIVER H, 1st Lt, was a member of the 654th Bomb Sq, 25th Bomb Gp, APO 634.

WALCH, JOHN W., Major, was a member of the Hq, 25th Bomb Gp, APO 634.

BRUNNER, FREDERICK J., S/Sgt, was a member of the OSS Detachment, FPO 100.
